

Outcomes generated during the IFSP:

Child will participate in play and hang out times by crawling. We will know she can do this when she is able to crawl across a room to get to the toy or person she wants 3 times per day for 5 days in a row.

Child will participate in hang out times by walking. We will know she can do this when she is walking to get into things so Mom has to follow her twice a night for five nights in a row.

Child will participate in meal times by saying done. We will know she can do this when she says "Done" to tell you she is done eating for 6 meals in a row.

Child will participate in meal times by eating. We will know she can do this when she eats with her fingers or spoon from a plate and keeps the plate on her tray for the whole meal for 6 meals in a row.
