Name(s)/Titles of others present during contact:

**Description of Contact:**

Today SC completed a home visit. XXXX was sick with a stomach virus for about two weeks. He is feeling much better now. XXXX is thinking of going back to school in January and XXXX is interested in going to school himself but he is not sure when.

SC stated that she will contact XXXX next month by phone.

Goals were updated (see below).

XXXX denies needing any resources at this time.

**Goal Progress:**

XXXX is now in the process of getting SSI for XXXX. XXXX does agree now that they should get SSI. XXXX can get on his knees and rock himself. He is sitting a few times unsupported. He says "momma" now. XXXX is trying to stand for couple of seconds. He is doing much better at daycare sitting in his chair.

**Service Delivery Monitoring:**

Mom said that XXXX (Primary Provider) has been out twice a month, once at daycare and once at home. She states visits have been going well. They have been working on introducing lumpy foods and trying to crawl. At daycare they got XXXX some knee pads to help him crawl.

**Further Followup Needed:**

SC will contact XXXX next month by phone.
